Antwort

Service Pack 4a
Code History (Windows NT/2000)

Die folgenden Neuerungen und Bugfixes sind im Service Pack enthalten:

1. **Allgemeines**
2. **DvISE Service Layer/DvISE Administrator**
3. **Tobit InfoCenter/Nachrichten Editor**
4. **Tobit InfoCenter Notifier**
5. **DvISE PostMan**
6. **DvISE Mail Access Server**
7. **DvISE WebBox**
8. **DvISE TLD für ISDN-Karten**
9. **Aktuelle Dateiversionen**

1. Allgemeines

Tobit InfoCenter PDA Synchronisation: Dieses Service Pack 4a wird benötigt, um die neue "Tobit InfoCenter PDA Synchronisation" nutzen zu können. Diese sind ebenfalls im Download Bereich des club tobit.com verfügbar. Neue Version des Tobit InfoCenter XP: Im Service Pack 4a ist eine aktualisierte Version des 32 Bit Clients (Tobit InfoCenter XP) enthalten. Diese wird nur dann auf den DvISE Server kopiert, wenn dort bereits eine frühere Version des Tobit InfoCenter XP mit eingetragener Lizenz vorhanden ist.

DVADMIN.EXE 6.60a
